Online Portfolio: babyburaq.vercel.app

PROFESSIONAL SUMMARY

- Recent graduate in Applied Computer Science with experience in front-end and back-end development (JavaScript, React, Node.js, Java, Python, C#).
- Hands-on experience in React Native, CI/CD, and APIs; currently expanding skills in AI & Data Engineering (Python, ML & big data).
- Eager to learn and driven to contribute to innovative software solutions in a junior developer or data/AI-focused role.

EXPERIENCE

Internship Mobile App Developer, Eniris

Feb 2022 – Jun 2022

- Developed the Smartgrid-one app largely independently from scratch using React Native, including a user-friendly interface and front-end functionalities.
- Collaborated with the Agile team and applied React Navigation and React Context for efficient status management and a smooth user experience.

Student Job Production Worker, Adient

Aug 2018 – Sep 2018

- Supported the Volvo seat production process by performing precise assembly and quality checks.
- Worked efficiently as part of a team and strictly followed safety and production regulations.

Student Job Packing Worker, Ryhove

Jul 2017 – Sep 2017

- Performed assembly line work for packaging biscuits and systematically checked the quality of the product.
- Ensured a smooth production process by working consistently and accurately.

EDUCATION

Micro-degree AI & Data Engineering

Feb 2025 – Present

University College Ghent

Bachelor of Applied Computer Science

Oct 2022 – Feb 2025

University College Ghent

PERSONAL INFORMATION

- Driving licence B: in training (starting January 2026)

IT-SKILLS

Programming languages: Python, Java, C#, JavaScript, TypeScript, Kotlin, SQL, NoSQL

Frameworks & Libraries: React, React Native, Node.js, .NET Core, Spark, Spring Boot

Tools & Methodologies: Git, REST APIs, Agile/Scrum, CSS, HTML

AWARDS/CERTIFICATES

- Certificate of Course Completion – Database Foundations

16 Dec 2020
